### DETAILED ACTION

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by **Jenq** (US 2002/0142553 A1).

#### *Regarding claims 8-10:*

Jenq discloses (in Fig. 1C) a semiconductor device made by a solid phase epitaxial regrowth technique (§0009), comprising a top layer 150 at a surface of a semiconductor substrate 100 with a conductivity profile 160 having peak conductivity value located substantially at said surface (e.g., note location of elements 150 and/or 160); a metal oxide semiconductor device comprising said device; and an apparatus provided with said device (e.g., §0005). Therefore, Jenq anticipates these claims.

#### *Allowable Subject Matter*

3. Claims 1-7 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: Claims 1-7 are allowed primarily because the prior art does not anticipate or render obvious the following limitations, in combination as recited in claim 1: implanting a dopant into said semiconductor substrate through said insulating layer to provide said amorphous layer.
